

Proposed Removal from Office and Recall (Members of the Scottish Parliament) Bill

Introduction

A proposal for a Bill to introduce new measures on removing an MSP from office, including additional grounds for removal and new processes for removal, such as recall. Proposed new grounds for removal include where an MSP does not participate in parliamentary proceedings for a given period without valid reason or receives a prison sentence lower than the current threshold for automatic removal.

The consultation runs from 20 January 2022 to 13 April 2022.

All those wishing to respond to the consultation are strongly encouraged to enter their responses electronically through this survey. This makes collation of responses much simpler and quicker. However, the option also exists of sending in a separate response (in hard copy or by other electronic means such as e-mail), and details of how to do so are included in the member's consultation document.

Questions marked with an asterisk (*) require an answer.

All responses must include a name and contact details. Names will only be published if you give us permission, and contact details are never published – but we may use them to contact you if there is a query about your response. If you do not include a name and/or contact details, we may have to disregard your response.

Please note that you must complete the survey in order for your response to be accepted. If you don't wish to complete the survey in a single session, you can choose "Save and Continue later" at any point. Whilst you have the option to skip particular questions, you must continue to the end of the survey and press "Submit" to have your response fully recorded.

Please ensure you have read the consultation document before responding to any of the questions that follow. In particular, you should read the information contained in the document about how your response will be handled. The consultation document is available here:

an individual

Which of the following best describes you? (If you are a professional or academic, but not in a subject relevant to the consultation, please choose "Member of the public".)

Member of the public

Optional: You may wish to explain briefly what expertise or experience you have that is relevant to the subject-matter of the consultation:

As a taxpayer my level of expertise or experience is irrelevant when it comes to being able to remove corrupt politicians from an office that I am obligated to pay for.

Aim and approach - Note: All answers to the questions in this section may be published (unless your response is "not for publication").

Q1. Which of the following best expresses your view of the proposed Bill?

Partially supportive

Q1. Which of the following best expresses your view of the proposed Bill?

Please explain the reasons for your response.

I support any measures that make it easier to remove corrupt politicians from positions they have abused. However, I don't think the bill goes far enough, 6 months is too long before triggering the process of removing mp's or other public servants who are not delivering the service they are being paid for.

Q2. Do you think legislation is required, or are there other ways in which the proposed Bill's aims could be achieved more effectively? Please explain the reasons for your response.

1. [Redacted]

2. [Redacted]

3. Ban mps from having second jobs.

Q3. What is your view on the proposal to remove MSPs from office if they do not participate sufficiently in parliamentary proceedings?

Fully supportive

Please explain the reasons for your response. Please include your views on: what constitutes sufficient participation, how the process for removing an MSP from office should work in practice where they are not sufficiently active for a period of, for example, six months (see detail of consultation document under element one of the proposal for background on this question).

I demand more value for the money that you extort from my wages, it's bad enough that you vote wage rises for yourself every year never mind the absolute contempt you hold voters in. Any process that makes it easier to remove corrupt politicians is one that must be supported.

Q4. What is your view on the proposal that receiving a prison sentence of a year or less is an appropriate trigger for an MSP to be automatically removed from office?

Fully supportive

Please explain the reasons for your response, including detailing how long you consider a minimum prison sentence should be to trigger the automatic removal.

Our supposed leaders should do so by example. The current inhabitants of the house of commons are not fit to run a bath let alone a country. Criminals should not be allowed to Occupy high office.

Q5. What is your view on the proposal that an individual who is removed as an MSP under these proposals, either through insufficient participation or being sentenced to a particular period in prison, should be unable to stand as an MSP again for the rest of the relevant parliamentary session?

Fully supportive

Please explain the reasons for your response.

People who lie in public office should never be allowed to hold ANY position again. Liars cannot be trusted.

Q6. What is your view on the proposal to introduce a system of recall for MSPs? Recall is where the electorate in an area can trigger a special election to remove an elected representative before the end of their term if certain conditions are met

Fully supportive

Please explain the reasons for your response, including how you would envisage such a system working in practice, for members elected under the regional list system and for constituency members elected under the first past the post system.

The fact that these powers don't already exist just proves that the Scottish Parliament is an absolute joke. It demonstrates that devolution has been a complete disaster.

Q7. What is your view on the proposal that, where an MSP has been given a prison sentence, they should only be removed from office once any appeal process they pursue has concluded?

Fully opposed

Please explain the reasons for your response, including commenting on the alternative option where an MSP given a prison sentence would be removed from office as soon as they are sentenced, as opposed to awaiting the completion of an appeals process.

Appeals take years, of your convicted why should the taxpayer pick up the bill for a protracted legal process.

Financial Implications

Q8. Taking into account all those likely to be affected (including public sector bodies, businesses and individuals etc), is the proposed Bill likely to lead to:

a significant reduction in costs

Please indicate where you would expect the impact identified to fall (including public sector bodies, businesses and individuals etc). You may also wish to suggest ways in which the aims of the Bill could be delivered more cost-effectively.

It shouldn't cost us more money to fight corruption, but given the Scottish government's awful track record with fiscal affairs and dodgy accounting, no doubt they will find a way to ensure that it does.

Equalities

Q9. What overall impact is the proposed Bill likely to have on equality, taking account of the following protected characteristics (under the Equality Act 2010): age, disability, gender re-assignment, marriage and civil partnership, pregnancy and maternity, race, religion or belief, sex, sexual orientation?

Neutral (neither positive nor negative)

Q9. What overall impact is the proposed Bill likely to have on equality, taking account of the following protected characteristics (under the Equality Act 2010): age, disability, gender re-assignment, marriage and civil partnership, pregnancy and maternity, race, religion or belief, sex, sexual orientation?

Please explain the reasons for your response. Where any negative impacts are identified, you may also wish to suggest ways in which these could be minimised or avoided.

Who cares. What do protected characteristics have to do with people's ability to do a good job?

Sustainability

Q10. In terms of assessing the proposed Bill's potential impact on sustainable development, you may wish to consider how it relates to the following principles:

- living within environmental limits
- ensuring a strong, healthy and just society
- achieving a sustainable economy
- promoting effective, participative systems of governance
- ensuring policy is developed on the basis of strong scientific evidence.

With these principles in mind, do you consider that the Bill can be delivered sustainably?

No

Please explain the reasons for your response.

I don't believe that the Scottish government under the snp are capable of running a piss up in a brewery. You don't care about a strong healthy society, your policies promote learned helplessness. There's a mental health and an obesity crisis in this country and all you care about is booster jabs.

Is your policy on trans children and vaccine passports backed by scientific research? Doubt it. You people are utter charlatans.

General

Q11. Do you have any other additional comments or suggestions on the proposed Bill (which have not already been covered in any of your responses to earlier questions)?

Close holyrood down ASAP. P45 for everyone involved.
